Field Work

Report

Date : 05.01.2024  
Title : Environmental and Historical Studies  
Place : Anaikkarai Dam and Gangai Konda Cholapuram  
No. of Beneficiaries : 79

### Objectives:

- To develop environment and historical awareness among the students.
- To understand the significance of water and historical places.
- To develop the skill of preventing environment pollution among the students.

On 05<sup>th</sup> January 2024, Department of Computer Science organised an enlightening Field Work to Anaikarai Dam and Gangai Konda Cholapuram. This Field Work provided students with invaluable firsthand experiences in understanding water resources, prevention of environment pollution and historical heritage. Beginning at Anaikarai Dam, students delved into the significance of sustainable water management practices, engaging in cleaning activities aimed at fostering environmental consciousness. Transitioning to Gangai Konda Cholapuram, students immersed themselves in the rich cultural tapestry of the Chola dynasty, marveling at intricately designed temples and gaining insights into ancient architectural techniques. Through this immersive journey, 79 students from I-Year not only gained practical knowledge but also created awareness on environment pollution by cleaning the dam and historical heritage, inspiring them to become proactive stewards of natural and cultural treasures.

### Outcomes:

- Students learned the significance of water resources and historical heritage.
- Applied their knowledge of water conservation and actively participated in initiatives to raise awareness.
- Learned the ancient architectural techniques.
