Differently-Abled Friendly Policy

The institution deems it as an essential to create and maintain an inclusive and supportive learning environment for varied student body. Differently-abled students are a vulnerable group that frequently experience intolerable prejudices/discrimination, one significant aspect being education. The college abides by the government's reservation policy, which aims to reduce stigma and encourage aspirant students with any kind of disability to pursue higher education. The institution is committed to take the necessary steps to ensure that these students receive the advantages of quality education. Under this policy, the institution shall,

- Ensure a barrier-free, inclusive learning environment for people with disabilities.
- Facilitate infrastructure/physical needs, such as the availability of scribes, special seats and extra time during exams.
- In order to promote self-reliance and confidence, provide a suitable support structure, including counselling, mentoring and advice.
- Verify that learning resources and tools are easily accessible.
- Ensure prompt redressal of any grievances that have an impact on their emotional and physical health.
- Extend the benefits of scholarships and freeships instituted by the Central/State government, funding agencies, the college and its benefactors to the differently-abled students.

Principal,
